

Notice of Separate Billing

The physician may order laboratory and/or radiology services for you while you are in our facility. Although the services are performed in this facility, the laboratory and radiology are extensions of the hospital and you will receive a separate bill from them. We do not bill for x-rays and lab tests.

Billing for laboratory services is done by Rex Outreach Laboratories, not through this office. Please be advised that some insurance companies mandate where your lab tests can be performed. The physician in this facility may be in-network with your insurance company but Rex Laboratory may not be. The same may be true with LabCorp or other outside laboratories that your insurance does not cover.

Billing for radiology services is done by Rex Hospital, not through this office. Radiology services are billed in two parts. The first part of the bill is for the service itself, and a bill from Rex Hospital will be sent to you for the actual testing. You will also receive a bill from Wake Radiology for the professional reading by a radiologist.

Some insurance companies may also apply lab and/or x-ray charges to your deductible. If you have questions as to whether your charges will be managed in this manner, please consult with your insurance company.

If you have any questions, please ask our staff at check-out and thank you for choosing UNC Physicians Network.
